

ROC curve for the 'number' variable. The x-axis is labeled 'False Positive Rate' and ranges from 0.0 to 1.0. The y-axis is labeled 'True Positive Rate' and ranges from 0.0 to 1.0. A dashed diagonal line represents the baseline. The ROC curve is a solid black line that starts at (0,0) and rises sharply to a True Positive Rate of approximately 0.95 at a False Positive Rate of 0.05, then continues to rise more gradually towards (1,1).
